Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Drawings

1. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: "10". Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 1, line 5 "said base" has no antecedent basis and it appears should read -- said base member--.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1 and 3-9 are rejected under 35 U.S.C. 102(b) as being anticipated by Reynolds.

Reynolds shows a helmet 2 having a base portion and a collar member 1 capable of being coupled to the helmet 2. With respect to claim 3 note first fastening member 8 on the collar member 1 and complimentary second fastening member 7 on the helmet 2. With respect to claim 4 note the hook and loop or loop pile fasteners at 7, 8. With respect to claim 5 note second fastening member 7 on the base portion of helmet 2 as shown in Figure 2. With respect to claim 6 note such lengths as claimed shown in Figures 1-3. With respect to claims 7-9 note the ends at the closure means or hook and loop fastenings 9.

Claim Rejections - 35 USC § 103

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. Claim 2 is rejected under 35 U.S.C. 103(a) as being unpatentable over Reynolds in view of Perlinger. Reynolds does not to constructing the collar member of leather. Perlinger teaches old the use of leather in constructing a collar member as at 10 (see column 3, line 5). It would have been obvious to one of ordinary skill in the art at the time of the invention to use the leather of Perlinger in constructing the collar member 1 of Reynolds to achieve the advantage of wind proofing the collar member.

Art Unit: 3765

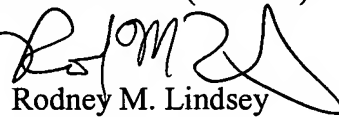

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Note particularly, the collar members of Mazur, Dallas et al., Pershing et al., Bochynsky et al., Luigi and Swanson et al. and the use of leather in Dickhoff and Kao.
